INTRODUCTION

FOOTFRICA is an African social football platform that connects players, fans, and communities through a shared love for the game. It reflects the energy, diversity, and unity of football across the continent, creating a space where the sport is experienced beyond the pitch.

Our corporate identity represents the face and personality we present to the world. This brand guide ensures consistency across all communications, online and offline, while protecting the integrity of the FOOTFRICA brand.

These guidelines provide a clear framework for expressing our brand and must be followed in all materials. In the case of any conflict, this document serves as the primary reference.

THE LOGO

Logo Overview

Our logo is a core element of the FOOTFRICA brand identity and serves as our primary visual identifier. Its consistent and correct application across all communications is essential to maintaining brand recognition and integrity. The logo is designed as a combination mark, consisting of both the icon and wordmark.

Clear Space

To maintain clarity and visual impact, the space between the logo and any surrounding design elements must always be preserved.

Maintaining this minimum spacing ensures the logo remains distinct, legible, and free from visual interference across all applications.

Logo Lockups

To ensure flexibility across different applications, the logo may be used in any of the approved arrangements shown below. Each lockup is designed to maintain clarity and visual balance in varying contexts. When a smaller size is required, select the version that best suits the application while preserving legibility and brand integrity.

Logo Variations

Our logo must only be used in the colors specified within this manual.

These approved variations ensure consistency and reinforce the FOOTFRICA brand identity. No other colors should be applied to the logo under any circumstances.

Resizing

Our logo must not be distorted in any way. It should never be stretched, squashed, or altered disproportionately.

When resizing the logo, always maintain its original proportions to ensure consistency and visual integrity across all applications.

Background

When applying our logo, ensure it remains clearly visible against all backgrounds. In cases where the background conflicts with our primary colors, use the approved alternative logo versions provided in this manual. This ensures optimal contrast, legibility, and a consistent brand appearance across all applications.

COLOUR SCHEME

Colour Palette

This is the official FOOTFRICA colour palette. It must be used as the reference for all brand communications to ensure visual consistency across all platforms and materials.

All design outputs must adhere strictly to this palette to maintain a cohesive and recognizable brand identity.

DEEP GREEN RGB: 0% 100% 0% HEX: #006400	GOLD RGB: 239% 191% 4% HEX: #EFBF04
DEEP GREY - RGB: 102% 102% 102%, HEX: #666666	
GREY - RGB: 230% 230% 230, HEX: #E6E6E6	

OUR FONT SYSTEM

Our Font System

The font used in the logo is Ethnocentric Regular. Our alternative font for body text is calibri has the font used for the logo is exclusive to the logo and might not fit well for body of text.
